

FIRST Workshop in Indonesia

We cooperated with the United States Department of State (U.S. DOS) organize a two-day FIRST (Foundational Infrastructure for Responsible Use of Small Modular Reactor Technology) workshop for Indonesia on 8th-9th August, 2022.

【Background/Objectives】 ;

We supported FIRST workshop for Indonesia under the FIRST program promoted by U.S. DOS at the request of them.

【Results】 ;

- ① The workshop was held at the facility of the National Research and Innovation Agency of Indonesia (BRIN: Badan Riset dan Inovasi Nasional) in the Sulpon area for two days. “Workshop Nuclear Fuel with Indonesia: Nuclear Fuel Cycle, Qualification, and Acceptance“ was held on the theme of Nuclear Fuel requested by the BRIN
- ② U.S DOS and Oak Ridge National Laboratory (ORNL) from the U.S., Organisasi Riset Tenaga Nuklir (ORTN), the nuclear power research division of BRIN, Ministry of Energy and Mineral Resources (MEMR), Nuclear Regulatory Agency (BAPETEN), and others from Indonesia.

Main Participants from Indonesia, the U.S. and Japan in front of BRIN (The Venue for the Workshop)
