

On-Site Nuclear Seminar in Tallinn, Estonia

JICC, in collaboration with the Estonian Ministry of Climate (MoC), held a local seminar on September 24, 2026, in the MoC conference room in Tallinn, Estonia.

<Background / Objectives>

As part of an international cooperation project to develop the infrastructure for nuclear power generation in Estonia, and following consultations with the Estonian MoC, JICC held an on-site seminar in Tallinn, Estonia, focusing on the themes of “energy policies of both countries, capacity building for regulatory authorities, nuclear fuel procurement, and financing for power plant construction.”

<Details>

Approximately 40 experts from both Estonia and Japan participated in the seminar. Stakeholders from Estonia included representatives from the Estonian MoC, the Ministry of the Interior (MoI), the Ministry of the Environment (the regulatory authority), and the nuclear power project company (Fermi Energia). A representative from the Estonian MoC provided an overview of the status of Estonia’s nuclear power program. From the Japanese side, presentations were given by experts from the Agency for Natural Resources and Energy (METI) on energy policy; the Japan Atomic Power Company on financing power plant construction; Mitsubishi Research Institute on regulatory authority capacity building; and Hitachi GE Vernova on nuclear fuel procurement. In addition, a panel discussion on nuclear power plant construction was held between the two countries, during which positive views were exchanged.

<Results>

Ambassador Extraordinary and Plenipotentiary Nakamura of the Japanese Embassy in Estonia delivered the opening remarks. Through a fruitful exchange of information among experts from Estonia and Japan, this initiative contributed to improving the infrastructure of Estonia’s nuclear power sector and strengthening the robust relationship between Japan and Poland in the field of nuclear power generation.

Scenes from the Seminar

The event was featured on the MoC’s LinkedIn page and the embassy’s website.
